#### Rugged and Affordable

The new Intermec 782 thermal printer is a small, light durable unit that can be used in even the most challenging delivery environment. Made especially to hold Intermec's 700 Series, the 782 offers exceptional clarity and versatility. This printer can quickly print both standard and bar coded receipts plus graphics such as captured signatures.

Intermec printers have the features that maximize portability and minimize size along with the ability to withstand the rugged conditions of distribution applications. The printer's simple design makes paper loading easy and Lithium-ion batteries offer maximum power capacity while keeping weight to a minimum.

#### Reliable Quality

The reliable printer mechanism of the Intermec 782 enables use in the most challenging delivery environments. This durability does not come at the expense of print quality, as the new 782 printer offers exceptional print clarity and the versatility of graphics capability for logos and even bar codes.

#### Power to Spare

The automatic power savings sleep mode and quick three hour recharge time along with the vehicle charger option creates the optimum application solution for a long service day.

#### 782T Printer Workboard is designed especially for 700 Series

Designed specifically to hold the new Intermec 700 Series mobile computer, the 782 printer workboards offer rugged "one-piece" solution. The 782T features a 40-column direct thermal printer while the 782T CR features an optional magstripe or smart card reader.

The 782T CR's built-in low profile reader collects magstripe or smart card reader data and stores it in the printer buffer memory until the 700 Series mobile computer requests it.

The workboard accommodates a hand strap, shoulder strap or is capable of being mounted in a vehicle. Durable in design, the workboard easily take the punishment of daily work environments.
